

NOAIS-Form 2 Logical Subtest

- **Instructions:**

The test contains two main types of items:

Logico-divergent: These items require inductive and flexible reasoning. You must infer the intended logic from the information provided. Items require considering alternative interpretations.

Perception: These items require you to relate the information presented to a real-world object, concept, or situation. Your task is to recognize the intended connection and use all available clues to determine the correct answer.

Some items combine both types of reasoning.

Answers may consist of numbers, letters, or a combination of both.

Item ID 1

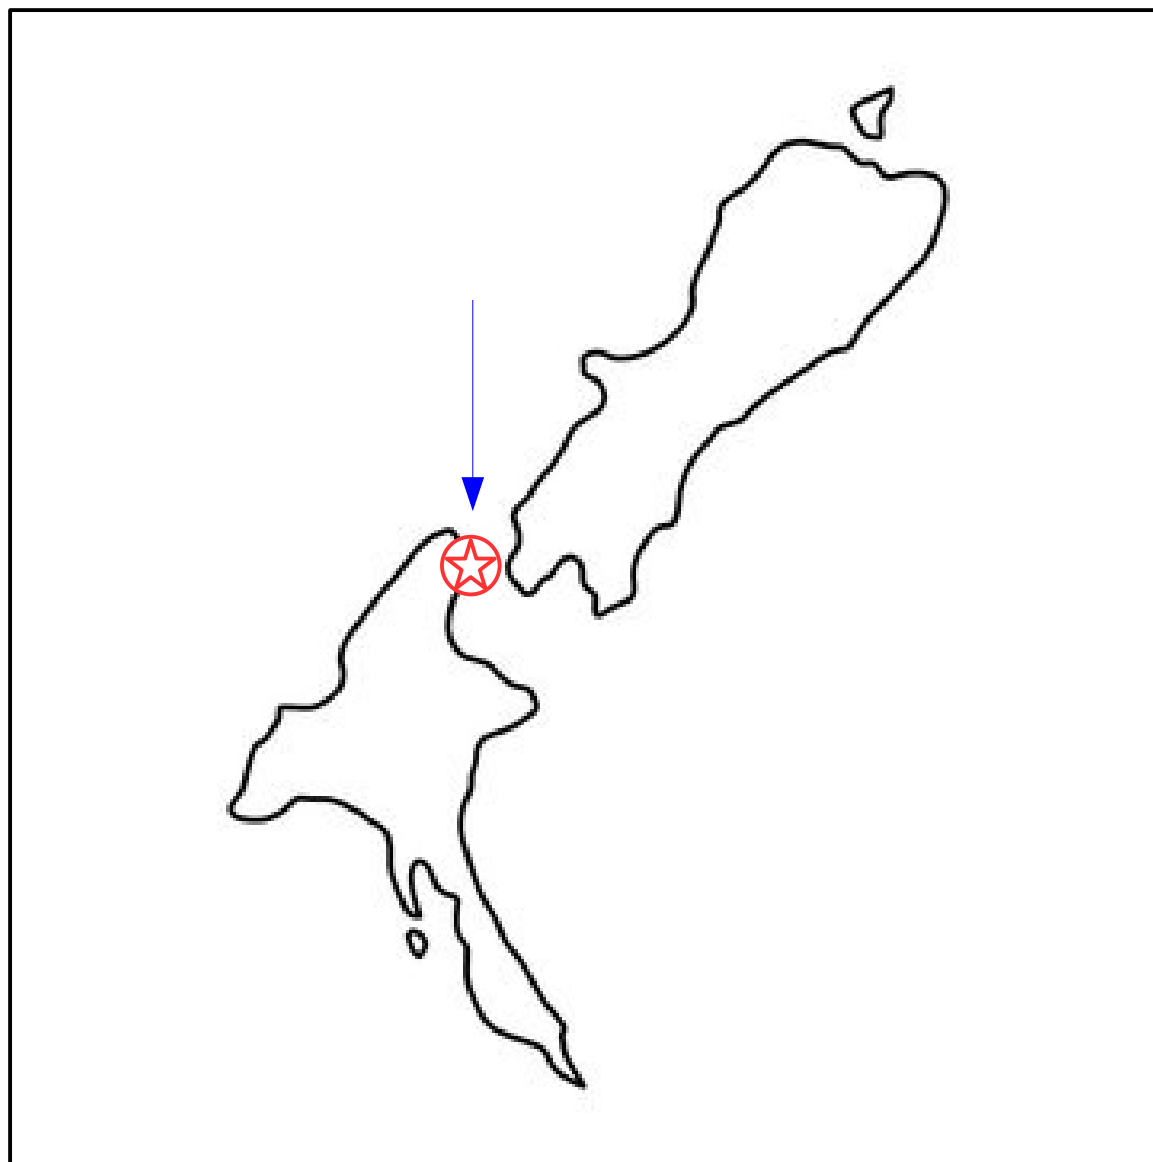

TRANZENT

Item ID 2

Correct the equation by adding x+/- in the right place and answer with the full corrected equation, each symbol must be used once:

$$754(12) = 126$$

Item ID 3

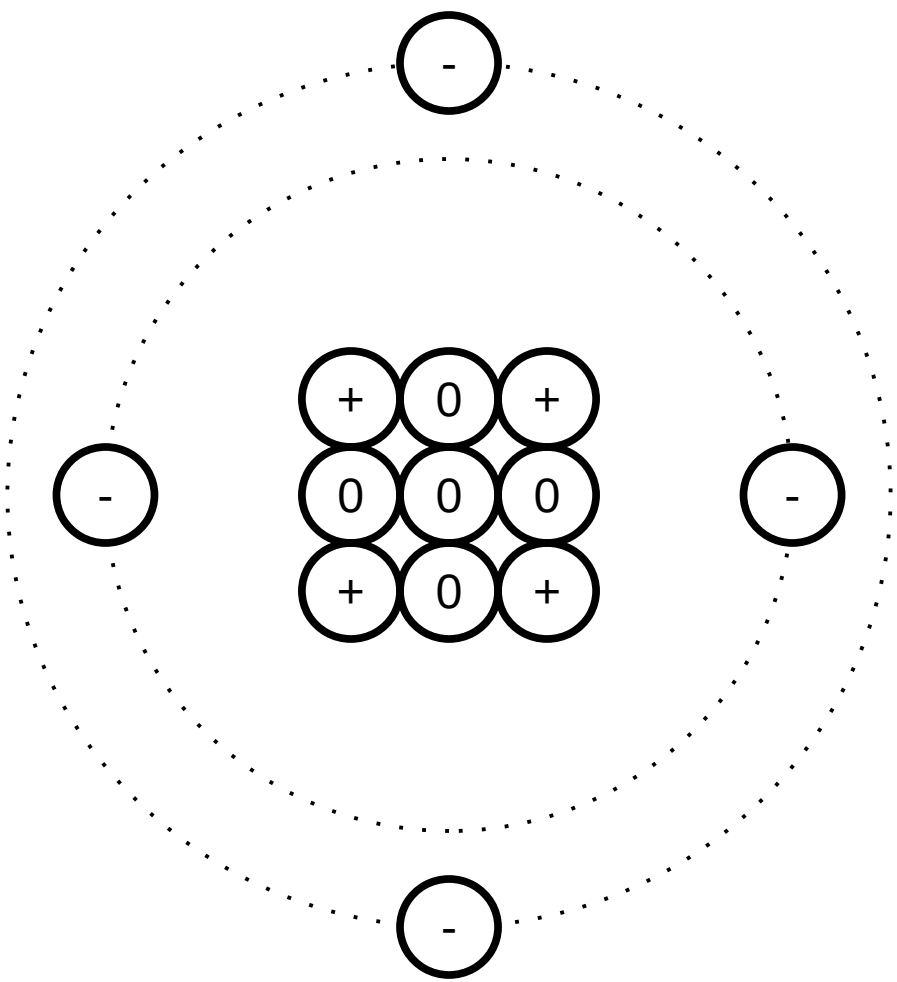

One-word answer

Item ID 4

95, 98, 2000, ?, ? , ? , 7

Item ID 5

One-word answer

Item ID 6

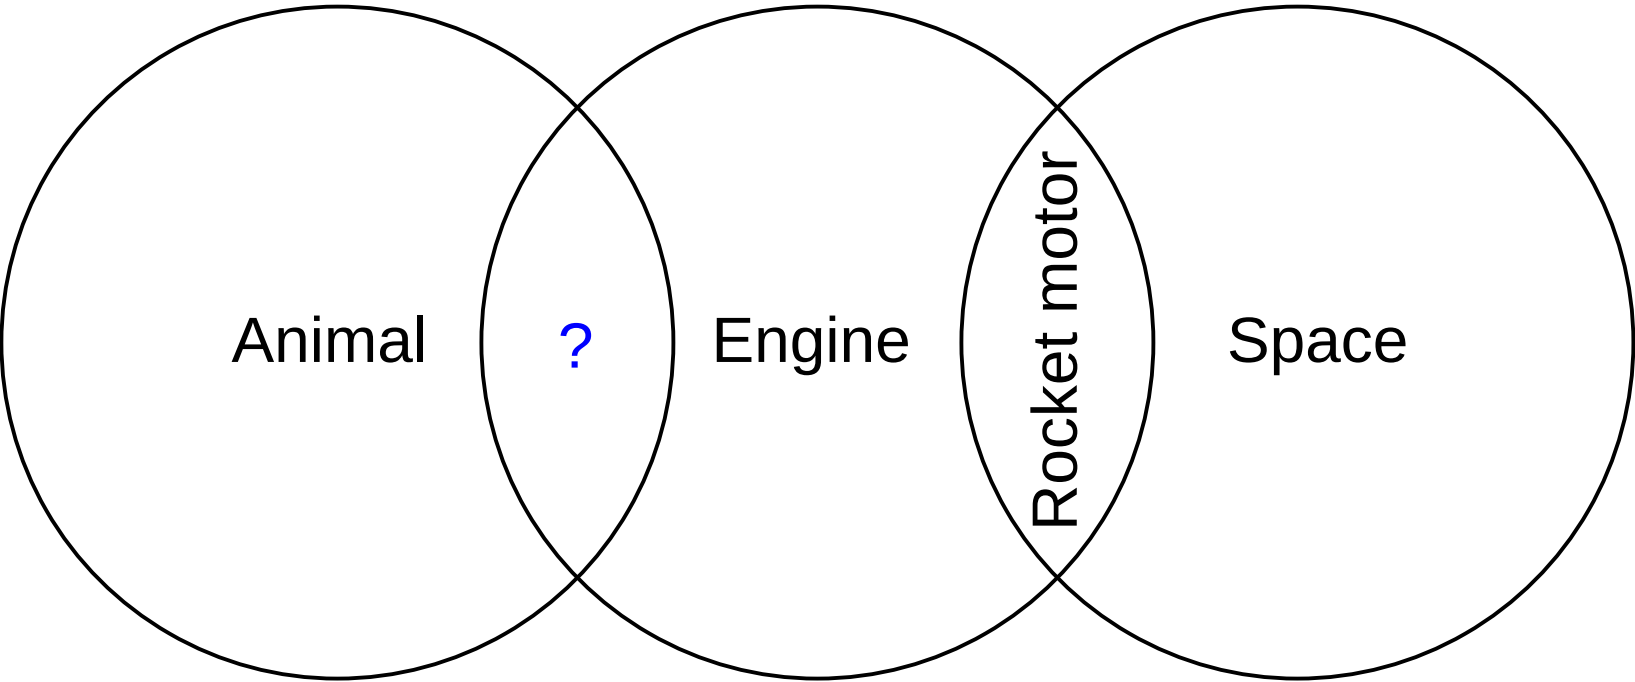

Three-letter answer

Item ID 7

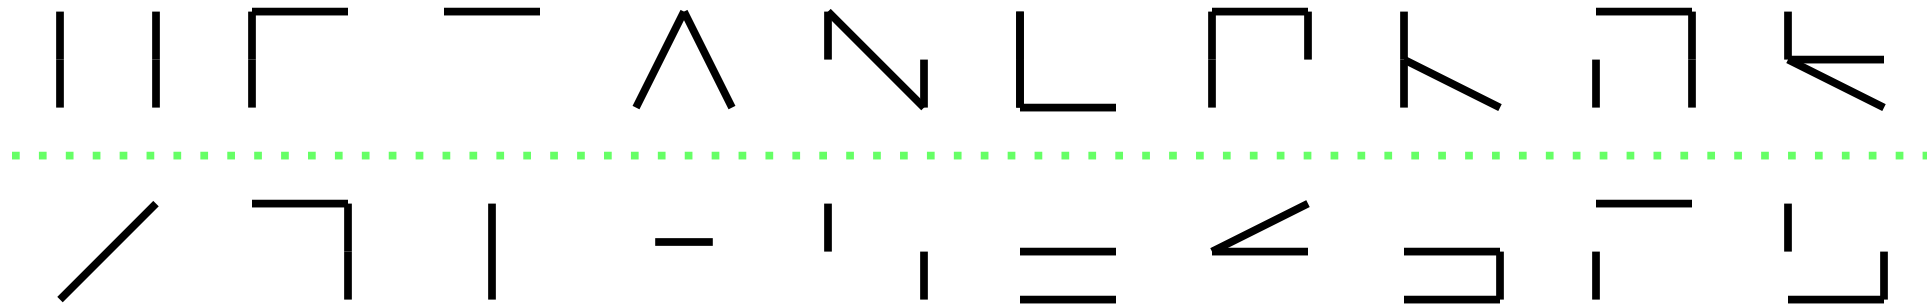

Th, Fi, Se, Ni, El, Th, Se, ?

Item ID 8

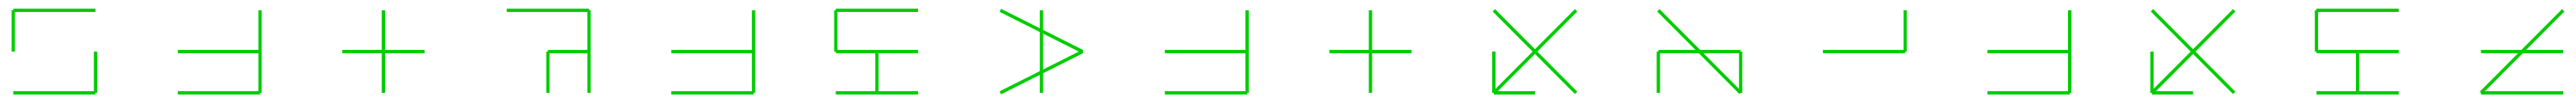

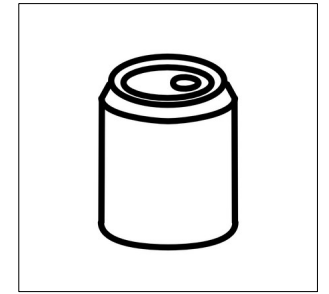

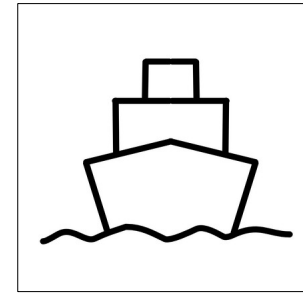

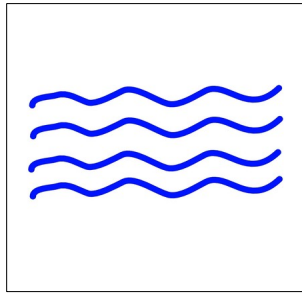

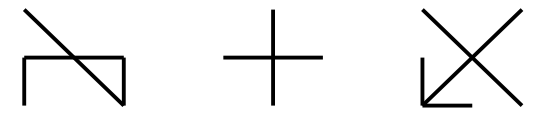

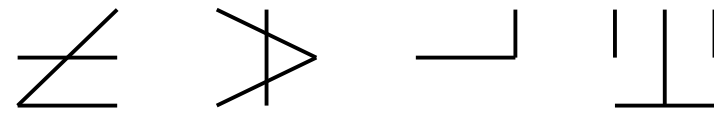

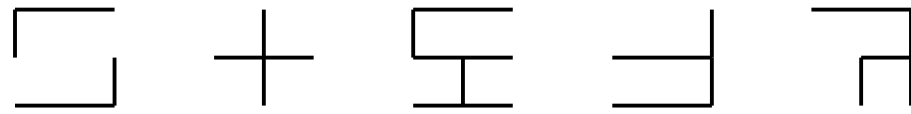

One-word answer

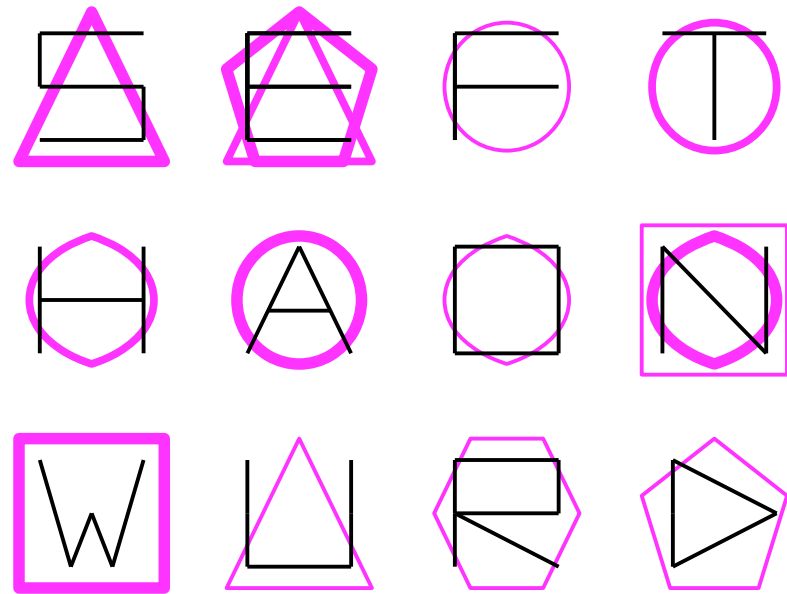

Item ID 9

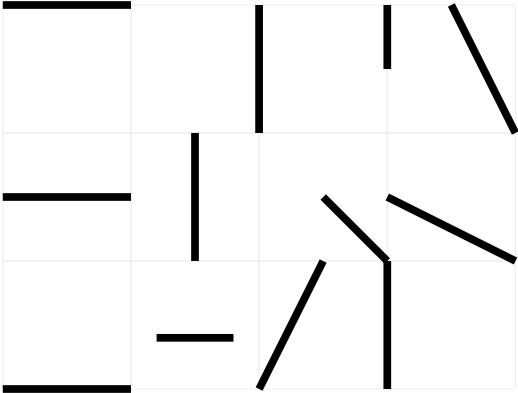

Item ID 10

Item ID 11

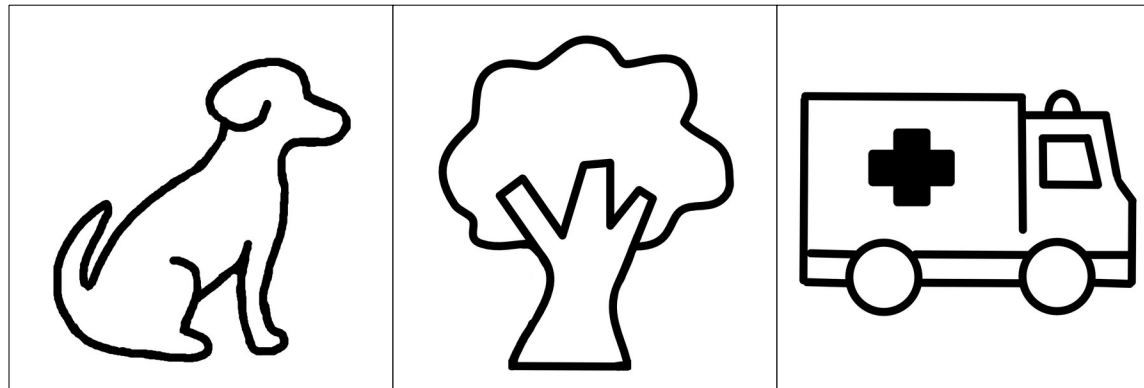

Item ID 12

1	2	4	1	1	1	1
2	9	10	3	6	5	3
7	12	11	5		9	5
9			8		12	8
12			12			12

Item ID 13

one over twenty nine

497

7588

?

Item ID 14

(73615273391 / BABC) | BABC

One-word answer

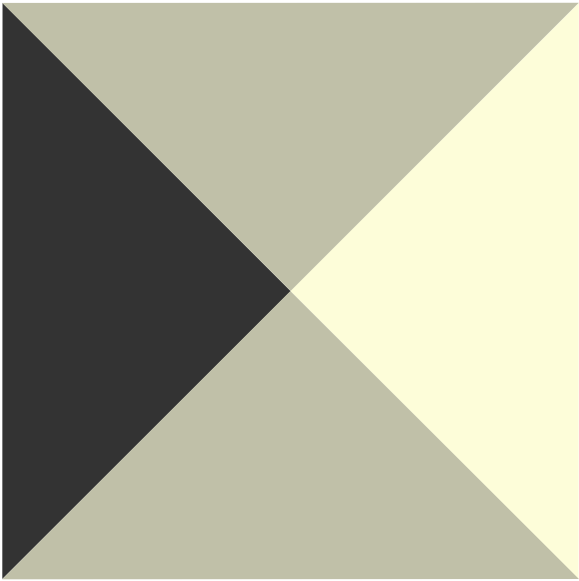

Item ID 15

Correct the equation by moving one element and answer with the full corrected equation:

$$80! = 2655$$

Item ID 16

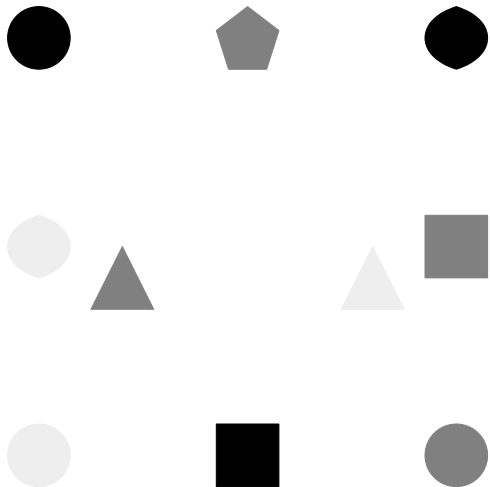

29.979

31.134

? of ?

Item ID 17
