

NOAIS-Form 2 Abstract Subtest

- **Instructions:**

The test contains one main type of item:

Matrix: Each matrix contains a pattern governed by one or more logical rules. The relationships between the elements may be sequential, associative or analogical. Identify the rule(s) and enter the missing element.

Answers may consist of numbers, letters, or a combination of numbers and letters.

When an item requires multiple answers, the order of the answers does not matter.
